I understand that this request is to be reviewed by the appropriate county official for proper classification. If activity is deemed minor in nature, I must take this document to Georgia Power Company along with plans for final approval prior to work beginning. I also agree to follow all erosion and sedimentation controls as outlined by the county and Georgia Power Company. All activities deemed as major in nature, will require a variance from the Georgia Environmental Protection Division. I understand that I am responsible for obtaining this variance and submitting it along with my plans to Georgia Power Company for final approval prior to work beginning.
